Houston Executive Airport Announces Completion of New Runway Extension *6,610 Ft. Runway Open*

BROOKSHIRE -- (March 27, 2008) – A new runway extension at Houston Executive Airport (HEA) is a welcome sight to pilots in the Houston area. Completed March 21, the 6,610 ft. runway is fully operational, marking a milestone towards the completion of the new general aviation facility located on the west side of Houston.

HEA owner and developer Ron Henriksen said the demand for a corporate aviation facility continues to grow.

“The opening of this runway is a much anticipated event for pilots and businesses looking for an alternative to the growing congestion at Houston’s airports,” said Henriksen. “We built HEA to offer a first-class business aviation facility, and to provide a gateway to those doing business in west Houston.”

The completion of the runway follows the recent opening of the airport’s corporate hangar. Completed in January, the 26,000 sq. ft. hangar includes a maintenance bay and is large enough to house two Gulfstream 550’s.

HEA Executive Director Andrew D. Perry, A.A.E., said the airport’s location and facilities were planned to fill a much-needed void in the Houston area.

“We are building one of the finest business aviation airports in the country,” said Perry. “HEA will provide unparalleled service and amenities for businesses along Houston’s energy corridor.”

"Our ability to support larger aircraft will be a real advantage to the aviation business community," he added.

After more than 2 years of planning and construction, Houston Executive Airport (HEA) opened for business in January 2007. The Henriksen Jet Center provides 24-hour aircraft fueling, ground handling operations, rental and crew cars, crew lounge, catering services and complimentary wireless internet access. Chevron Global Aviation was named the airport's fuel supplier. "We are poised to provide premium service for the business air traveler visiting West Houston," Perry said.

Located at 1900 Cardiff Road in Brookshire, HEA is a private commercial development established by a former commercial pilot and Houston native, Ron Henriksen. More information about the airport is available by contacting spokesperson Andrew D. Perry, A.A.E. at 281-945-5415 or visit our website at www.HoustonExecutiveAirport.com.
